

# Iris Pilot Operations Report

## Los Angeles County Regional Identification System (LACRIS)

Additional explanations and contact information are located at the end of this report.

### Report Summary

The summary numbers include bulk enrollments and error transactions that have been fixed. Expunged records are not included.

Operations Summary									
Date	Enrollments				Searches				
	Avg. Time	Success	Errors	Total	Avg. Time	Success		Errors	Total
					Match	Non-Match			
2015 - December	0.7 s	529	11	540	-	0	0	0	0
2015 - November	0.5 s	583	12	595	-	0	0	0	0
2015 - October	0.6 s	613	14	627	-	0	0	0	0
2015 - September	0.5 s	673	10	683	-	0	0	0	0
2015 - August	0.5 s	590	9	599	-	0	0	0	0
2015 - July	0.5 s	545	5	550	-	0	0	0	0
2015 - June	0.7 s	431	8	439	-	0	0	0	0
2015 - May	1.2 s	493	8	501	-	0	0	0	0
2015 - April	0.7 s	590	25	615	-	0	0	0	0
2015 - March	0.6 s	587	15	602	-	0	0	0	0
2015 - February	0.6 s	544	12	556	-	0	0	0	0
2015 - January	0.5 s	561	16	577	-	0	0	0	0
Monthly average for each year takes into account partial years but not partial months.									
2015 Monthly Avg.	0.6 s	561.6	12.1	573.7	-	0.0	0.0	0.0	0.0
2014 Monthly Avg.	0.3 s	335.4	626.7	962.1	-	0.0	0.0	0.0	0.0
Yearly summaries include information from each year of operation with partial information for the current year.									
2015 Summary	-	6,739	145	6,884	-	0	0	0	0
2014 Summary	-	2,348	4,387	6,735	-	0	0	0	0
<b>Total</b>	-	<b>9,087</b>	<b>4,532</b>	<b>13,619</b>	-	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>

Summary of Notable Items		
	Location	Message
A	LACRIS - LAPD Metro Jail #1	High percentage of iris enrollment submissions resulted in errors (14.3%).
Some issues are mentioned both at a high level and then as root causes. For example, a location may be listed for high percent of enrollments with no eyes enrolled. It may also be listed for a large number of low-quality right eyes and skipped capture of left eyes.		

## Iris Enrollments

Iris images can be enrolled with tenprints or as an update to an existing record. Both methods require two Type-17 Iris Image Records to be submitted. When an iris cannot be captured the reason can be indicated in the Type-17 record and no image is submitted.

Enrollments with tenprints allow 0-2 iris images to be submitted. Enrollments without tenprints require 1-2 iris images be submitted. Enrollments can either completely succeed (two iris images enrolled), completely fail (no iris images enrolled), or partially succeed (one iris image fails and one enrolls). Tenprint submissions with no iris images are considered "successful".

Iris Enrollment Results By Camera Serial										
SERIAL	Location	Successful Iris Image Enrollments						Errors	Total	
		2 Eyes		1 Eye		0 Eyes	Subtotal	Subtotal		
RB0531306370	LACRIS - Century Regional Detention Facility #2	140	100.0 %	0	0.0 %	0	0.0 %	140	2	142

## Iris Images Submitted for Enrollment

High numbers of bad or skipped images may indicate a defective camera, poor lighting, or software issues.

Iris Image Enrollment Submissions By Camera Serial													
SERIAL	Location	Left Eye						Right Eye					
		GOOD		BAD		SKIP		GOOD		BAD		SKIP	
RB0531306370	LACRIS - Century Regional Detention Facility #2	140	100.0 %	0	0.0 %	0	0.0 %	140	100.0 %	0	0.0 %	0	0.0 %

## Iris Enrollment Errors

FBI CJIS Division recommends that errors are corrected to maximize the enrolled population and utility of the iris recognition services. Descriptions of error types can be found at the end of this report. Submissions may contain multiple errors.

Iris Enrollment Error Types By Camera Serial							
SERIAL	Location	Missing T-17 Errors			Templating Errors	Other	Total
RB0531306362	LACRIS - Long Beach PD #2				4	0	4
RB0731306618	LACRIS - LAPD Metro Jail #1				2	0	2
RB0531306370	LACRIS - Century Regional Detention Facility #2				2	0	2
RB0531306353	LACRIS - Long Beach PD #1				2	0	2
RB0531306365	LACRIS - Long Beach PD #3				1	0	1
<b>TOTAL</b>	<b>5</b>				<b>11</b>	<b>0</b>	<b>11</b>

## Identification Report

No identification search information is included in this report.

## Additional Information

### Agency, Facility, Location, and Serial Number

Locations are determined using the submitted iris camera Make/Model/Serial number (MMS) and iris image source agency (SRC) with a list of corresponding locations provided by the local or state agency. Please provide updates as needed.

### Error Types

#### Missing Type-17 Iris Record

*L0013 A general logic error was detected that is not currently defined. File contains an invalid number of Type-17 records.*

This error is caused by submissions with more or less than two Type-17 iris records. See the [Iris Pilot Tech. Spec.](#) for details.

#### Templating Errors

*IRP003 A template could not be created for the submitted image ELR: '1'.*

This error is almost always caused by low-quality iris images.

#### Other Errors

These errors include duplicate submissions and other minor glitches. Beginning in April 2015, most minor issues are automatically corrected on submissions. CJIS can provide additional information if needed.

### Response Times

Response times are measured from the time the Iris Pilot receives a submission to the time that a response leaves the Iris Pilot.

For iris enrollments submitted with tenprints there is additional time for tenprint processing before the irises are sent to the Iris Pilot that is not included in this report.

Bulk submissions are not included in average times.

### Two Iris Images vs. One Iris Image

*FBI CJIS Division always recommends enrolling and searching both irises to avoid any "clean misses".* For example, if only a right iris image is enrolled and a left iris image is searched, a non-match result will be returned even though the subject was enrolled in the iris database.

For each Type-17 Iris Record submitted there are three possible outcomes.

1. "GOOD" - The iris image was used for the enrollment or search.
2. "BAD" - The iris image failed to pass quality checks and was not used in the enrollment or search.
3. "SKIP" - No iris image was submitted.
